Editors Corner...

So far, this year has been a year that some people would rather forget, and for some others, a year that could not of been better. A year, that BUFORA would rather forget and a year that has seen many people switching loyalties and for others, a year that loyalties have been put to one side, just to prove a point and to feather nests. Why is British ufology becoming so wrapped up within itself, and bent on self destruction. We should be working together, and not trying to be better than one another.

This year has seen a number of ufo conferences, and from what my 'SPIES' have been telling me, I have missed a couple of real crackers. At the Wales conference in August, film footage was shown of an army helicopter chasing a light over a field. The light stopped ahead of the helicopter, then appeared behind it, as if playing chase. The conference had between 200-300 people attending it. Also, there was the August ufo conference in Blackpool, that went well with over 200 people attending the two day event. Conferences appeared to be well attended this year around the country, and lets hope that the 1995 ufo conference in Portsmouth, Hampshire is such a success. I will send all readers full details in the the October issue of the newsletter. Lets hope that our conference is as well attended, we shall see.....

Press/Tv/Radio matters over the past month 15.8.94 - 15.9.94 :

23.7.94 : DAILY MAIL : ONE POSITIVE UFO SIGHTING..

This was a book review of Daimonic Reality,by Patrick Harpur and in Harups own words : 'Otherworldly experiences are universal. They are not a respectable subject... They are scarcely mentioned by what we call the official agents of our culture,such as the academics,the church,the reputable press... Yet for every person who is certain that they have seen something out of this world,there are many more who believe that it is possible to see such things,or know someone who has'....And as Harpur writes 'Proof itself doesn't prove anything'...

The book looks at such subjects as UFO's,Crop Circles,Ghosts, Little green men etc.....

26.7.94 : WOMAN'S REALM :

This article looks at the many ufo sightings made by a Wiltshire couple Ray and Eleanor Baughn. Their sightings are normally after 8pm and they often hover in the same spot, West of Swindon for an hour or more.

28.7.94 : CHRISTCHURCH ADVERTISER.

This article concerns a Dorset Ministry of Defence worker who believes he and his family may of been 'Abducted' by a ufo. The saucer shaped craft, cocooned inside a glowing mist, zoomed around their car on a motorway. The article relates their experiences onboard the craft and is accompanied by drawings of the aliens and what happened inside the craft. The article was on the front page, and was over the centre two pages. A very interesting article, and well worth a read.

21.8.94 : MAIL ON SUNDAY : NIGHT & DAY....WHERE THE WILD

THINGS ARE.

If you are interested in the mystery cats of Britain, then this article is for you. The article contains photographs of the Surrey Puma, Black Beast of Exmoor, The Fiend of the Moors (Cornwall), Beast of Bodmin, Durham Puma, Leopard of Lanivet, The Big Cat of Worcester. This was a fascinating article that looks at the people in their green wellies in search o 'IT'.

10.9.94 : DAILY MAIL : UFO LEGEND THAT WON'T FLY AWAY.

The U.S.A.F revealed yesterday in a special report, that the Roswell crash in 1947, was in fact - a burst balloon. It was all part of Project Mogul - a top secret venture to develop balloons to carry a sensing device to alert the U.S military of any Soviet nuclear tests. Among the equipment onboard were items made of balsa wood and tinfoil held together by glue, rubber and fabric. (Well folks you have it, the Roswell mystery was in fact a balloon..What a load of ballyhoo...ED.)

1.9.94 : BOURNEMOUTH ECHO : TWO ALIEN VISITORS FROM OUTER

SPACE 'LOST' IN LIBRARY.

This Article refers to the talk that I gave at Fordingbridge library (Read on !!!) in August 1994. The article shows a photograph of the two 'ALIENS' that invaded the library at the end of the talk.

Television...

18.8.94 : MERIDIAN TV..

This featured Reg Presley (Former group member of the Troggs), in a corn field. He walked round with a device invented by the Japanese, to measure brain activity. The item lasted about 2 mins and was not really all that good.

7.9.94 : POLICE STOP !

Well fellow readers, the truth is finally out, the crop circles phenomenon has been finally solved. We can now all throw away those crop circle books, mags and dowsing rods.

Police Stop, showed actual footage of police chases and spectacular car crashes. So, what has this got to do with crop circles I hear you ask ?? Well, the program showed a police car chasing a Range Rover through country lanes. It went at great speed through the corn field and the presenter made the following statement :

'And for anyone still wondering how crop circles come about, this is perhaps as good an answer as any'.

So there you have it folks, just look out for a white Range Rover motor car, and if you see it, you have found the creator or the 'Creators'.....

IUFOPRA NEWSLETTER : AUGUST 94.

The group found out the hard way, that when you appear on the local radio, do not believe in all that they say, and be prepared to be ridiculed. MONDAY 12th September 1994..9PM....

✓ The witness was in his house, when out of the window, he sighted an object, triangular in shape at about 7,000 - 8,000ft altitude. It consisted of three white lights in a triangular formation, with a central smaller light, again white in colour that was flashing. The object travelled just a bit faster than an airplane and flew due West to East. The object appeared to be flying due North of Fareham and was the size of a new five pence at arms length.... If anyone out there has any idea what the object may of been, then please drop me a line.....(Editor).

It has finally arrived readers, the video that the world has been waiting for : **ROSWELL - THE MOVIE**. This movie, based on the alleged crash of a ufo in New Mexico in 1947, was released in America on 31.7.94, and is not available in the United Kingdom. I have just received a copy of this very thought invoking film and if you want a copy, then contact me at the editors address.

UFO LECTURE 25th AUGUST 1994 AT FORDINGBRIDGE LIBRARY.

Myself and Mr Ernie Sears, of the Southampton Ufo Group gave a 1 hour talk. We were told to expect around 35 children, aged between 7 - 12yrs old. In fact, around 17 children attended, but we put the relative small turn out, down to a nice day and people on holiday. The talk was to be in two parts, the first 30 minutes, I gave a talk on the history of ufology from the biblical aspect to present day, with a bit of video footage thrown in for good measure (When I showed the video footage,

one child shouted out 'THAT'S A FRIZBY'..Oh well,you can't win them all).The next 30 minutes were taken up with Mr Sears talking about his ufo sightings (14 to date),and the children were interested in Ernie's story.At the end of our talk,two of the library staff appeared dressed as 'ALIENS' and started 'ZAPPING' the children and the speakers.When we had picked ourselves up off the floor,two photographers appeared,one from the Newforest Advertiser and the other one was from the Bournemouth Evening Echo (FAME AT LAST....!!!! ED).The talk was somewhat light hearted and the children enjoyed it very much.One of the children approached us after the lecture and said that he was going to save £30 to buy himself a telescope,and see if he can see any ufo's....(What more can you say...ED).

Man In Black back in the news.....

I hear from fellow researchers,that M.I.Y's (Men In Yellow) are now to be found near some of the crop circle formations.I have been told by my M.I.B (Man In Bufora ?),that they are going to get together.So,when you next see a traffic warden near your car in circle country,just remember,he could be an M.I.Y or a M.I.B in disguise.So watch your backs.You will either get a ticket attached to the windscreen,or a pick axe handle through it.Either way,a very painful experience.

THE END OF THE CROP CIRCLE SEASON 1994 (A NEWS ROUNDUP).

The 1994 crop circle season has come to an end for yet another year.This year has been a year of hoaxing and a bit of copy cat creations,with not that many genuine formations.The farmers have cut down or destroyed formations before they could be properly investigated and the M.I.Y have been roaming the area.Hampshire has not seen that many formations this year.There has been 2 formations in the devils punch bowl,and one on the other side of the road, and Andover has had a visit or two with a couple of formations in the area.Yet again,the Alton Barnes area of Wiltshire has been peppered with formations,and I tend to believe that the area has become a mecca for the hoaxers, as people tend to expect to find circles there,as they tend to appear year after year in the same fields next ancient burial sights and areas of archaeological interest....?

As for foreign fields,I have heard on the 'CIRCLE' line,that formations have been found in Hungary,America and in Germany, but not much detail on these.I hope to in the future to obtain a full listing of the 1994 circles,which I hope to make available to my readers.I wonder what we will see next year...
